

Greenhouse Gas Emissions Verification Report

To: Mizuho Financial Group, Inc.

1. Objective and Scope

Japan Quality Assurance Organization (hereafter “JQA”) was engaged by Mizuho Financial Group, Inc. (hereafter “the Company”) to provide an independent verification on “Data Section of the Sustainability Report” (hereafter “the Report”). The content of our verification was to express our conclusion, based on our verification procedures, on whether the statement of information regarding the Company’s GHG Emissions for 2025* in the Report was correctly calculated, in accordance with the “Calculation Rule for Scope 3 Business trips data Ver.6” (hereafter “the Rule”). The purpose of the verification is to evaluate the Report objectively and to enhance the credibility of information regarding the Company’s GHG Emissions in the Report.

* The calculating period is from January 1, 2025 to December 31, 2025.

2. Procedures Performed

JQA conducted verification in accordance with ISO 14064-3. The scope of this verification assignment covers GHG emissions from 1 category of Scope 3 (Category 6: Business trips). The verification was conducted to a limited level of assurance and quantitative materiality was set at 5 percent of the total emissions in the Report. The organizational boundaries of this verification include the Company and 5 group companies listed in the Annex.

Our verification procedures included:

- Confirmation of integrated functions and the Rule, and checking the Report boundaries; calculation scenario; monitoring and calculation system; and calculation system and its controls
- Cross-checking the calculation results against evidence

3. Conclusion

Based on the procedures described above, nothing has come to our attention that caused us to believe that the statement of the information regarding the Company’s GHG Emissions in the Report is not materially correct, or has not been prepared in accordance with the Rule.

4. Consideration

The Company was responsible for preparing the Report, and JQA’s responsibility was to conduct verification of GHG Emissions in the Report only. There is no conflict of interest between the Company and JQA.

Sumio Asada, Executive Board Director
