Mizuho and Art

Based on the concepts of “Feeling Energized by Art,” “Making Art More Accessible,” and “Changing yourself through Art,” Mizuho, in collaboration with Tokyo University of the Arts, contributes to social innovation, and the overcoming of social challenges like improving gender equality and people’s well-being, aiming to co-create a sustainable and abundant society in terms of its art and culture as well as its economics.

We asked students at the Tokyo University of the Arts, Department of DESIGN to give form to the ideas they took from Mizuho’s Purpose, “Proactively innovate together with our clients for a prosperous and sustainable future”. Beginning in November 2023, this marks our tenth featuring of their artwork for shareholder and investor presentations.

Title: **“Look closer”**

Journeys taken together.
The warmth of a shared smile.
The energy of a joyful dance.

What do you see in an image that is everything, yet nothing at all?

Mizuho finds clarity by understanding the complexities of our world and imagining the future.
I have captured that spirit of discovery here and invite you to look closer and see the possibilities for yourself.
