

Investor Presentation for FY24 Apr. 2024-Mar. 2025

May 20, 2025

MIZUHO

Innovating today. Transforming tomorrow.

Mizuho Financial Group

Mizuho and Art

Based on the concepts of “Feeling Energized by Art,” “Making Art More Accessible,” and “Changing yourself through Art,” Mizuho, in collaboration with Tokyo University of the Arts, contributes to social innovation, and the overcoming of social challenges like improving gender equality and people’s well-being, aiming to co-create a sustainable and abundant society in terms of its art and culture as well as its economics.

We asked students at the Tokyo University of the Arts, Department of DESIGN to give form to the ideas they took from Mizuho’s Purpose, “Proactively innovate together with our clients for a prosperous and sustainable future”. Beginning in November 2023, this marks our seventh featuring of their artwork for shareholder and investor presentations.

Title: **“Progress”**

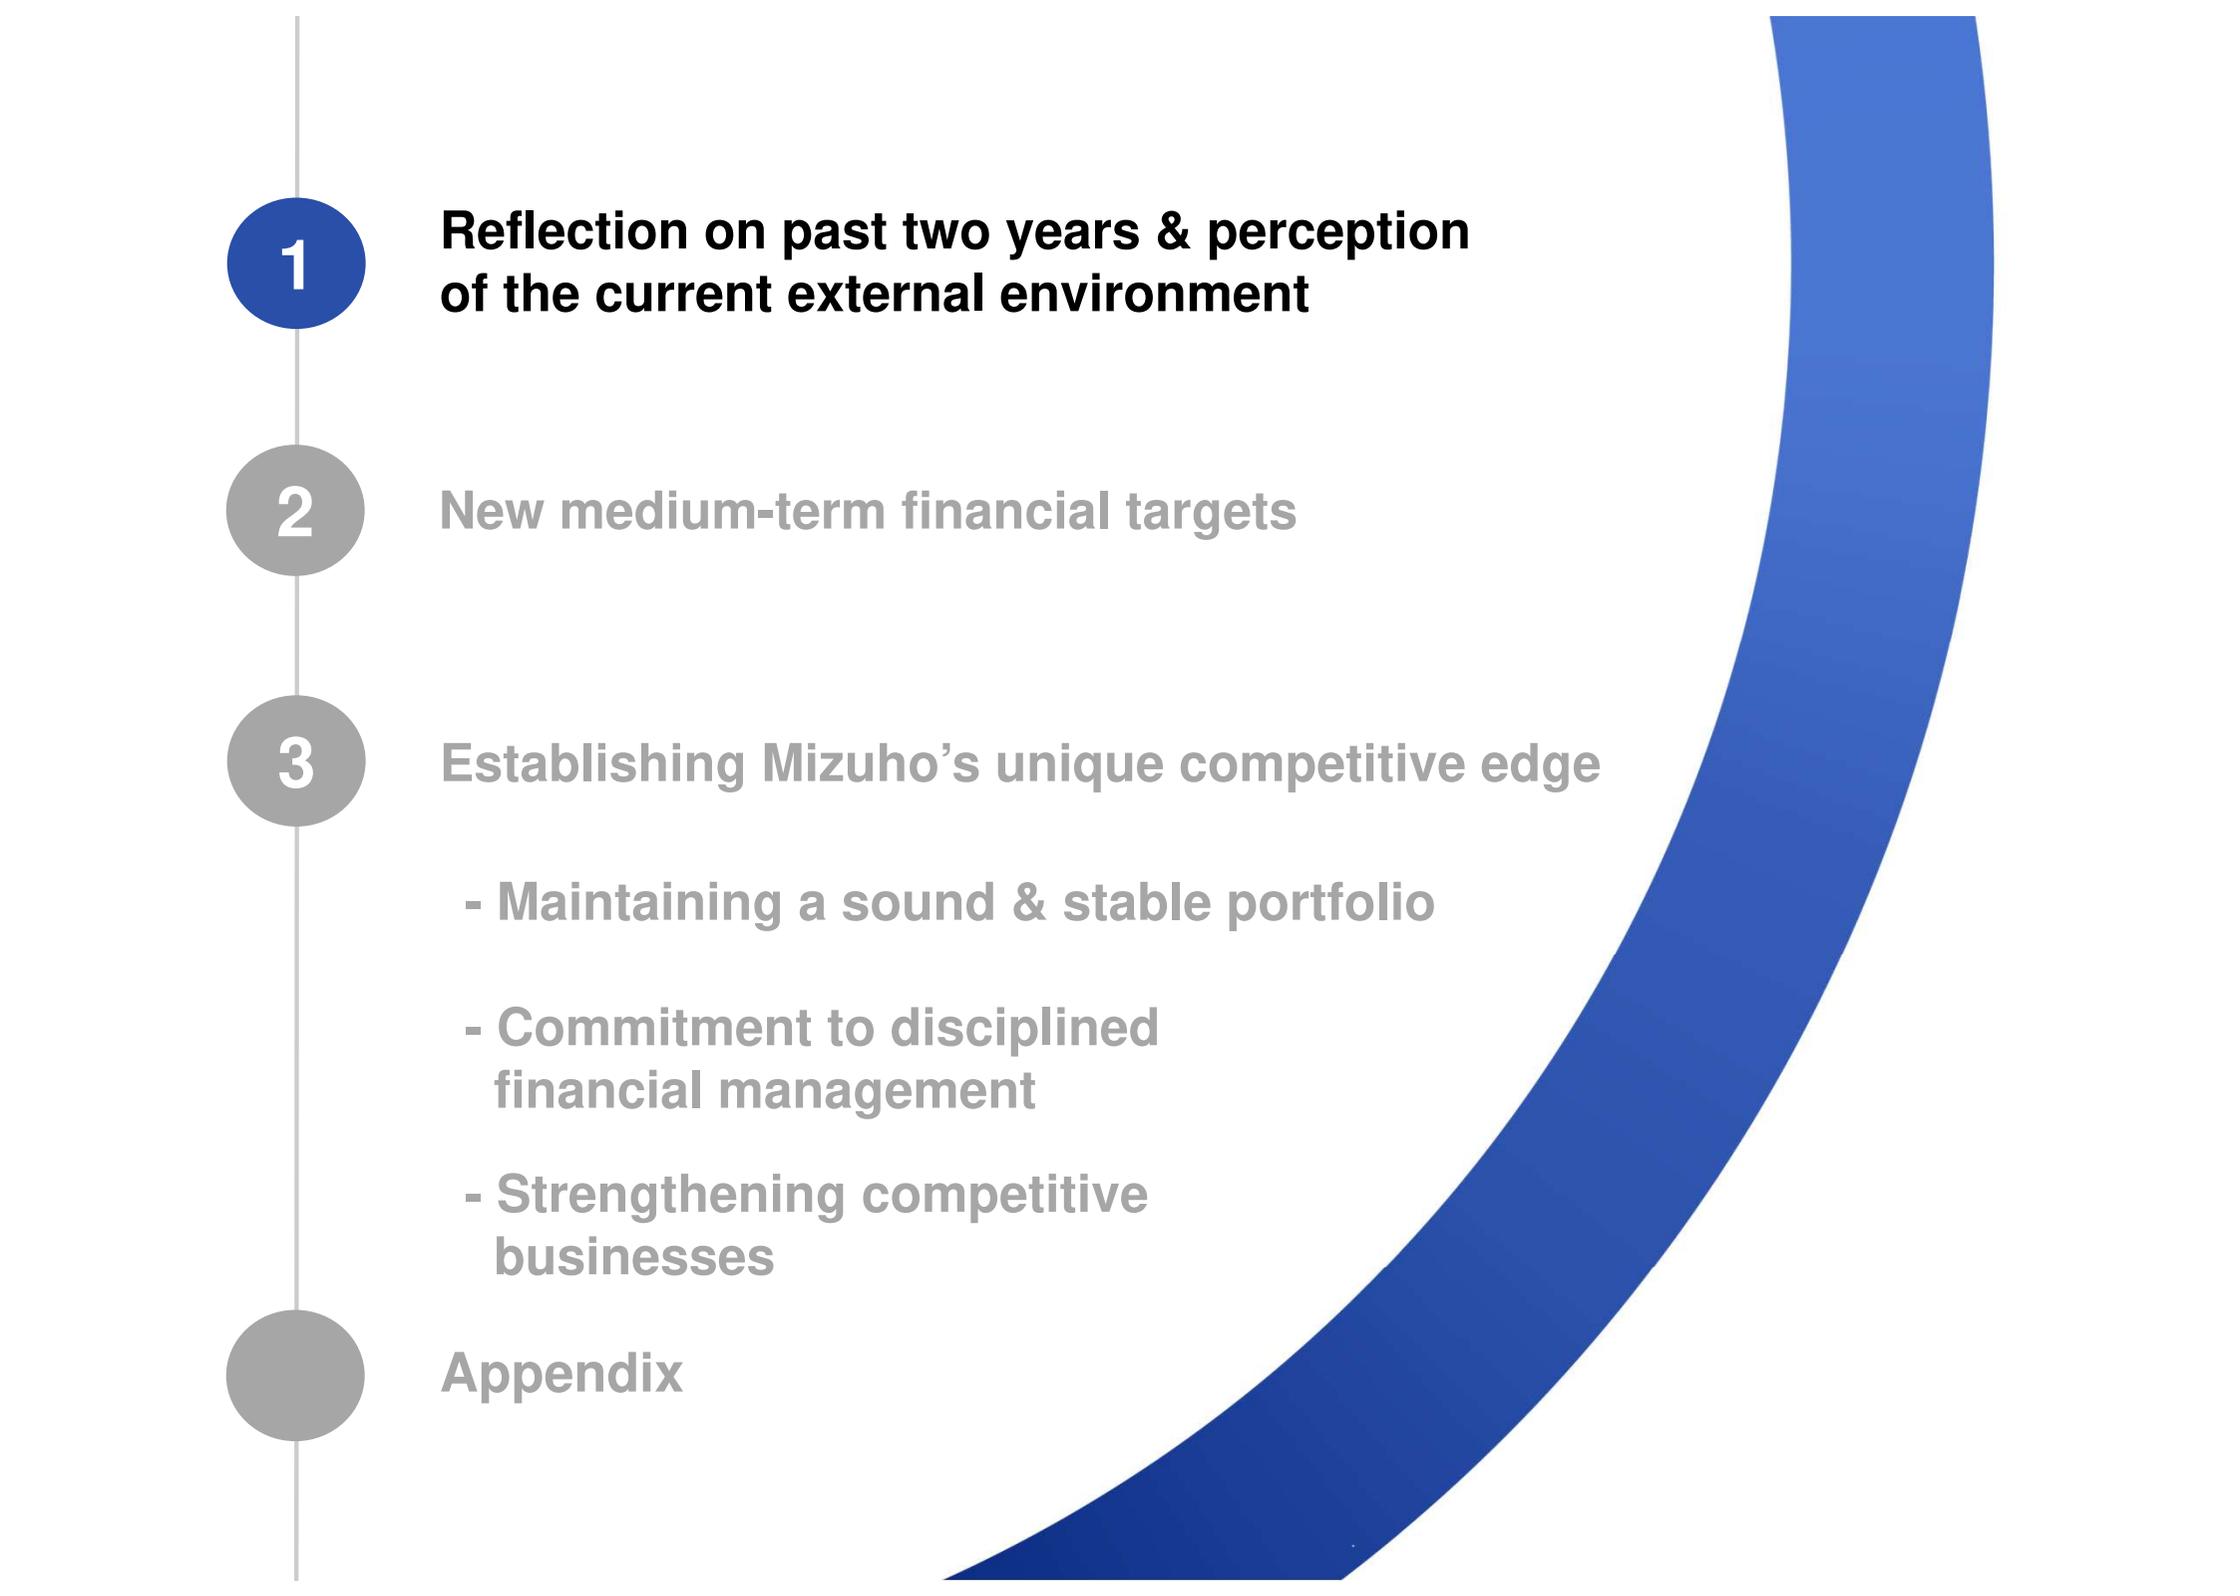

A time of continuous change. Ears of rice sway, resilient in the wind.

In this piece I have expressed the way in which ears of rice sway in the flow of time, and how each of the five business areas, move and progress through each stage.

Red is the color of passion and challenge. In Japan, it is also the color that connects people.

It is a representation of ten years of challenging together and growing together.

FY25 Outlook (Profit Attributable to Owners of Parent)

- Confident that we have built a franchise capable to achieve JPY 1T after-tax income
- In an ordinary business environment, by further pursuing our growth strategy, we will be able to target JPY 1.05T after-tax profit for next year
- However, given the looming uncertainty surrounding US tariff policy, made conservative adjustments to our FY25 outlook. We will periodically adjust our outlook based on the external environment

(JPY B, rounded figures)

Forward-looking preparations considering business uncertainties

1. Recorded reserves from a forward-looking perspective. 2. Incl. Net Gains (Losses) related to ETFs and others. 3. Excl. Net Gains (Losses) related to ETFs and others. 4. Pre tax. 5. Performance reflecting our true operation under an ordinary business environment, excluding financial adjustments.

3

Establishing Mizuho's unique competitive edge

- Maintaining a sound & stable portfolio
- Commitment to disciplined financial management
- Strengthening competitive businesses

Appendix

Strategy unchanged. Only revising medium-term financial targets

- Strategy to establish our unique competitive edges in order to pursue our vision unchanged
- Given the fact that we have achieved our financial targets one year ahead of plan, reformulated our mid-term financial targets. We will be agile in reviewing our targets based on changing environment.

➤ **Business Strategy** UNCHANGED

Focus Business Areas

Our business strategy, laid out in the previous Medium-term Business plan, remains unchanged. We will discontinue our past practice for establishing a new mid-term business plan periodically. Rather, strategy will stay unchanged for the foreseeable future.

➤ **Financial Targets** CHANGED

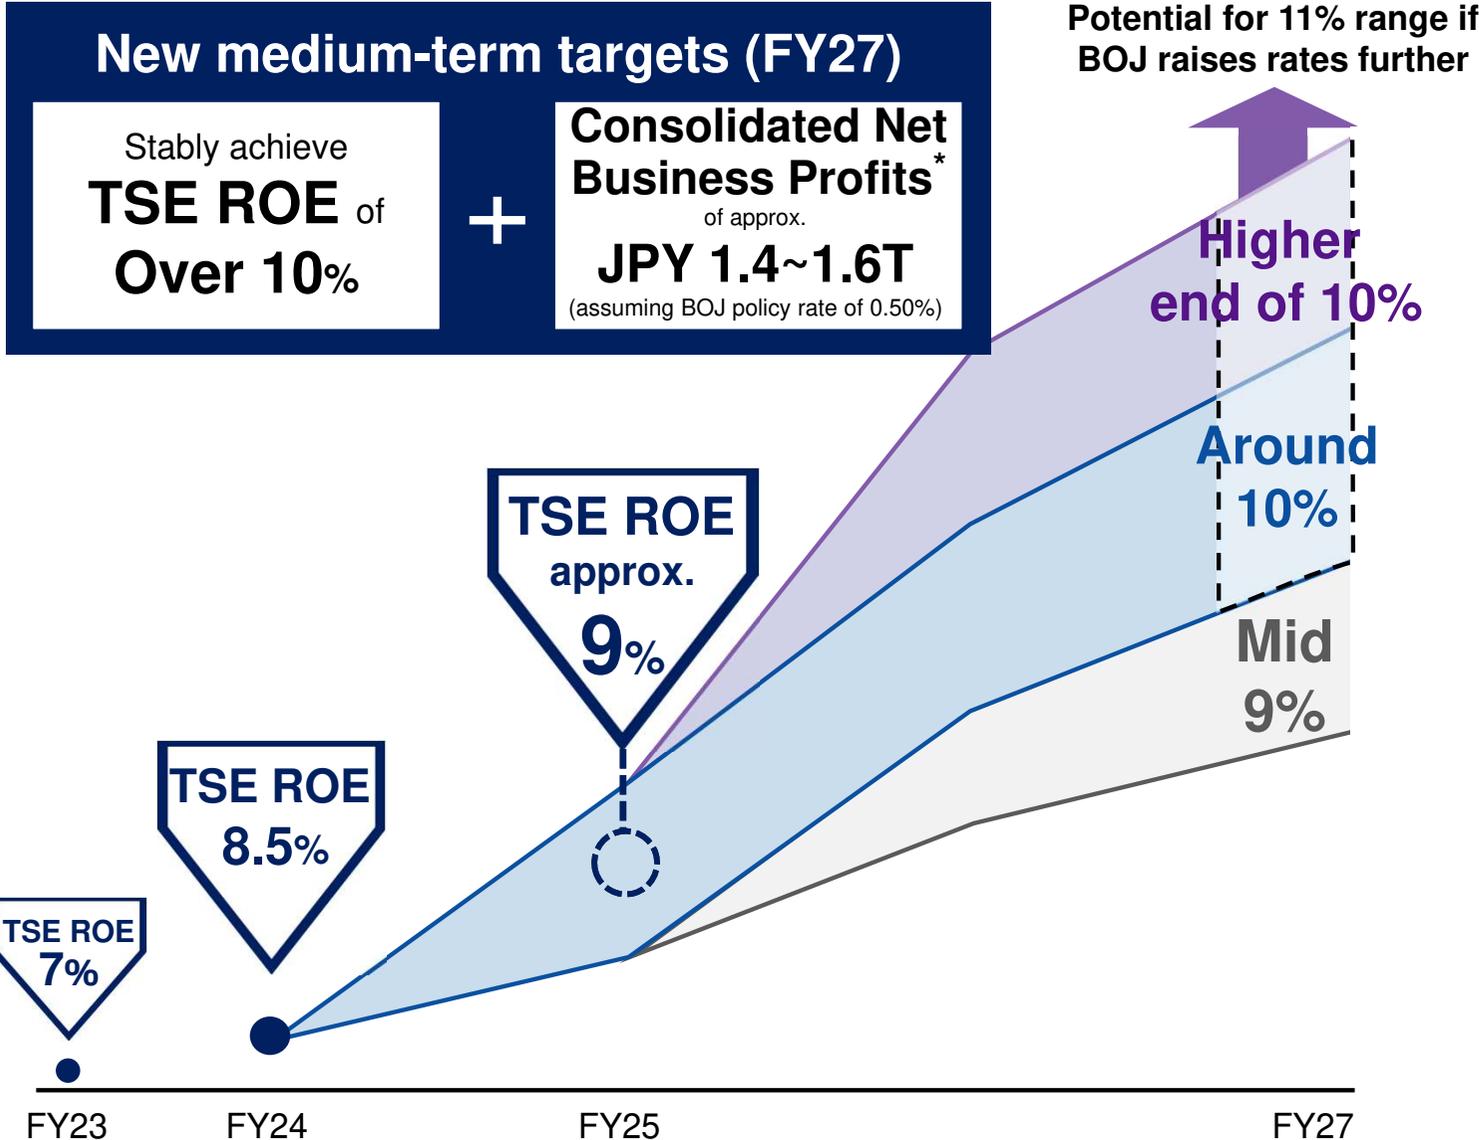

Previous targets

New medium-term financial targets

Revised medium-term financial targets, as the previous were achieved one year ahead of plan. We will flexibly discuss our mid-term financial targets based on changing environment.

Setting new medium-term financial targets

- Set new targets for FY27 based on three possible scenarios
- Scenarios and targets to be reviewed and adjusted in line with future developments

Scenarios for domestic and international economies

Favorable conditions

Large majority of reciprocal tariffs are withdrawn. Favorable economic conditions. BOJ raises policy rate to 0.75%

Gradual recovery

Some reciprocal tariffs continue. International economic downturn ensues, followed by gradual recovery. BOJ keeps policy rate at 0.50%.

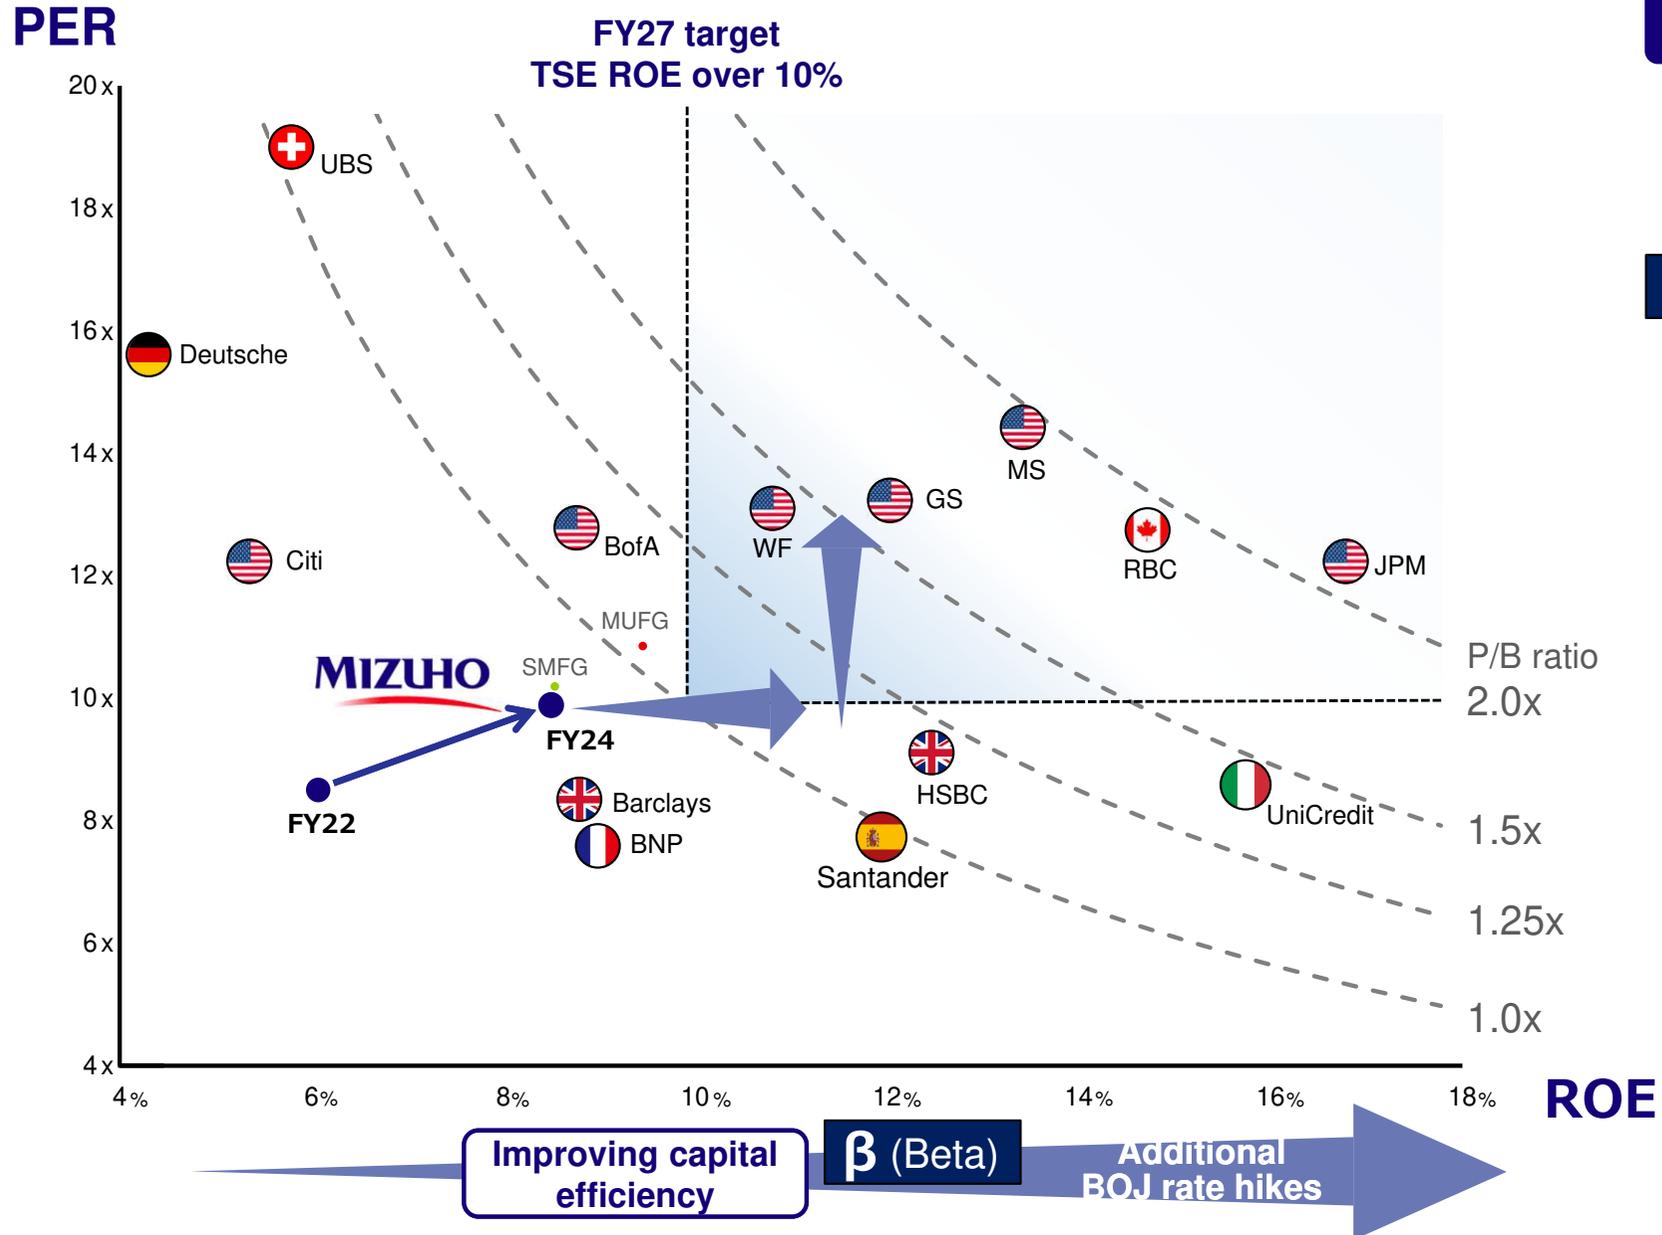

Stagnation

All reciprocal tariffs continue. International economic downturn ensues, followed by slow recovery. BOJ keeps policy rate at 0.50%.

Establishing Mizuho's unique competitive edge

- Maintaining a sound & stable portfolio
- **Commitment to disciplined financial management**
- Strengthening competitive businesses

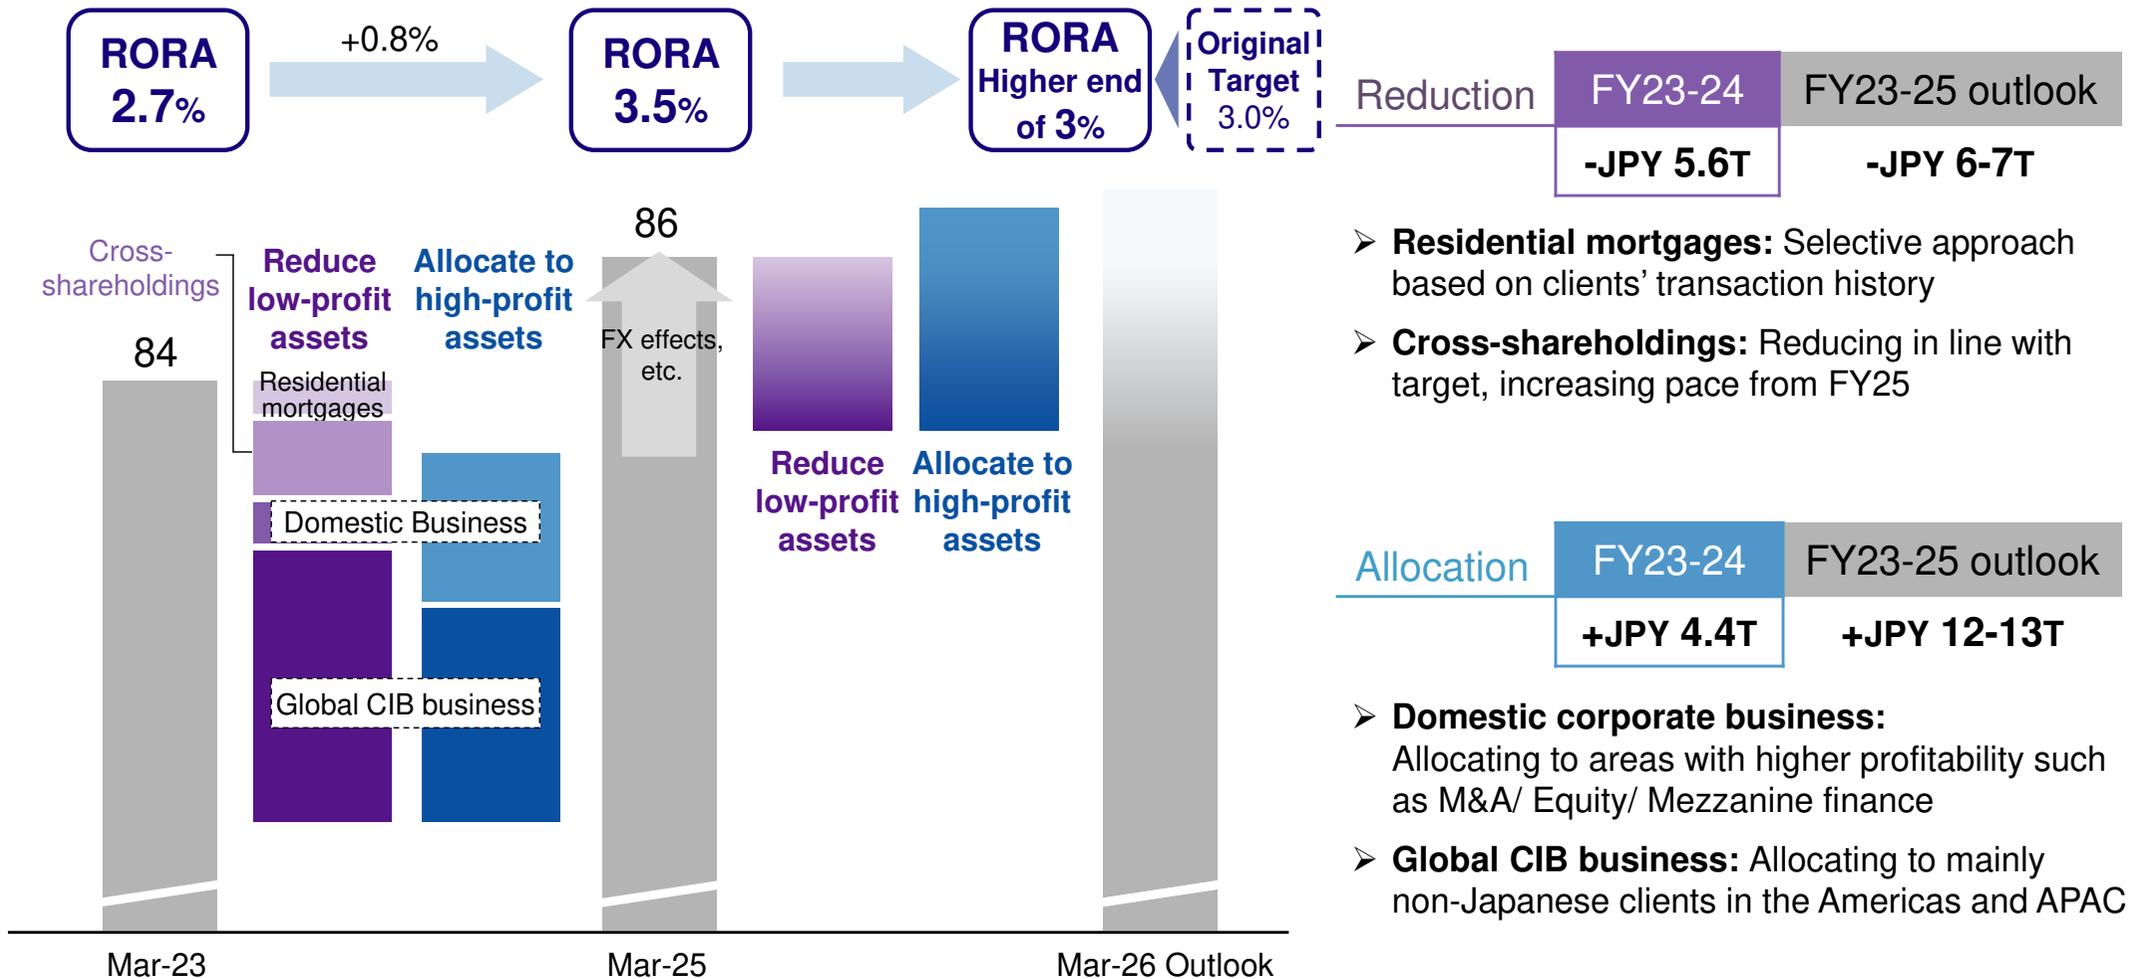

Appendix

Improving asset profitability

- Steady progress in reduction of low-profit assets. Continue re-allocation to high-profit assets such as M&A-related finance, and to Americas & APAC

RWAs & RORA*

(JPY T, rounded figures)

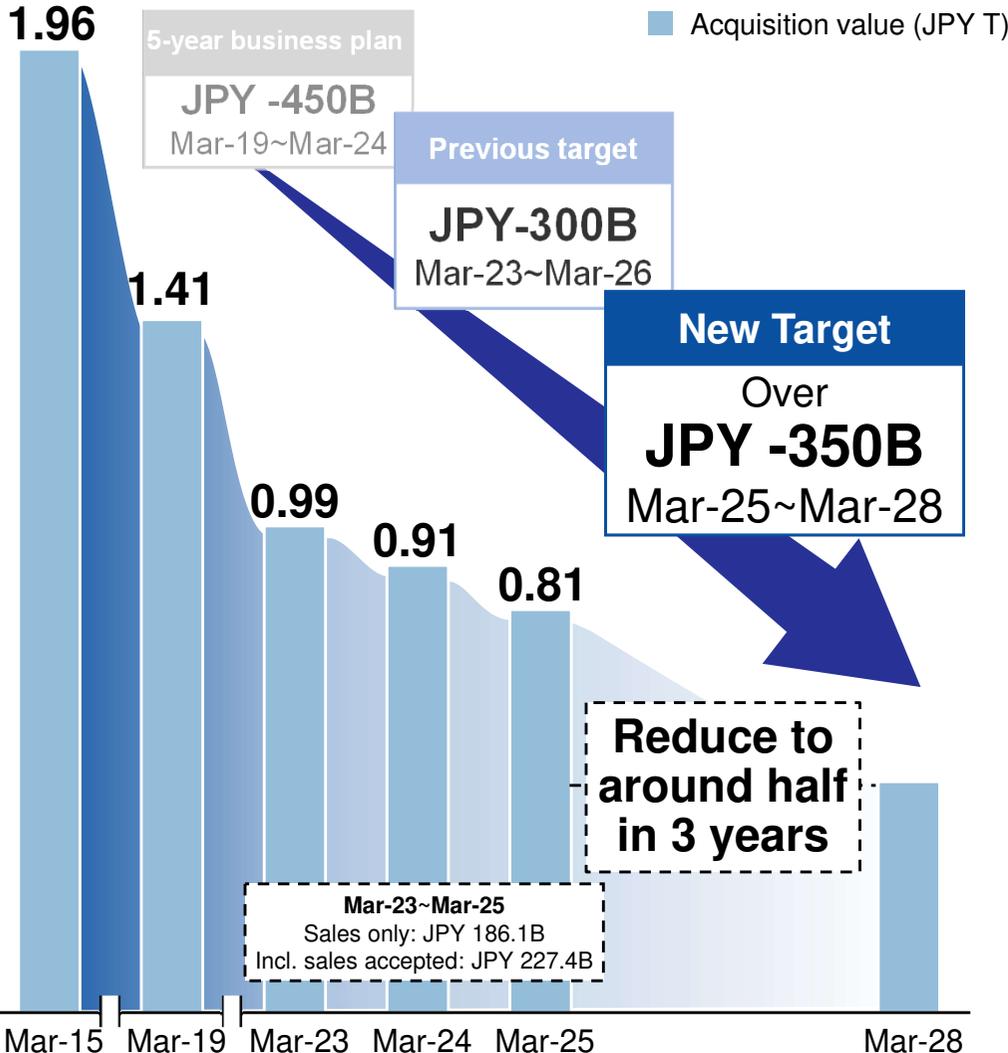

- **Residential mortgages:** Selective approach based on clients' transaction history
- **Cross-shareholdings:** Reducing in line with target, increasing pace from FY25

- **Domestic corporate business:** Allocating to areas with higher profitability such as M&A/ Equity/ Mezzanine finance
- **Global CIB business:** Allocating to mainly non-Japanese clients in the Americas and APAC

* RWAs calculated on a management accounting basis (figures for Mar-25 preliminary). Includes interest rate risk in banking account. RORA: Gross Profit RORA.

Progress on the sales of cross-shareholdings

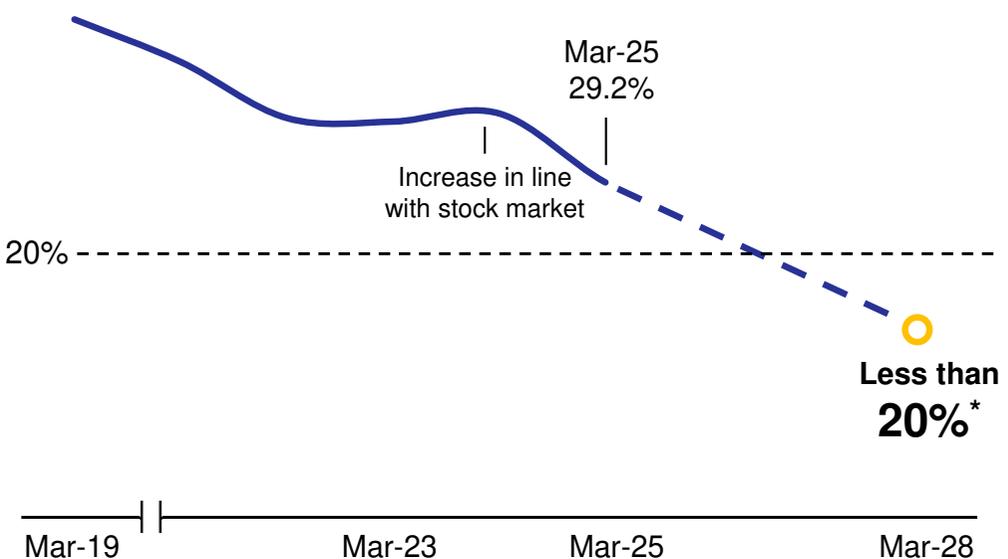

- Further increase our reduction plan for the next 3 years, minimum commitment to reduce JPY 350B and make effort to reduce over JPY 350B
- Additionally reduce JPY 200B in deemed cross-shareholdings to take total market value below 20% of Net Assets by Mar-28

Reduction outcome & plans

New Shareholder Return Policy

Shareholder return policy

CHANGED

In addition to keeping progressive increase of dividends per share, execute flexible and intermittent share buybacks

Dividends: Increase dividends per share by approximately JPY5.0 each fiscal year, based on the steady growth of our stable earnings base

Share buybacks: Decide share buybacks, based on our business results, capital adequacy, our stock price and the opportunities for growth investment, using the **total payout ratio of 50% or more as a guide**.

Progressive dividends are our principal approach while intermittent share buybacks will also be considered

Former policy

Dividends: Taking 40% dividend payout ratio as a guide, decide based on the steady growth of our stable earnings base

Share buybacks: Consider our business results, capital adequacy, our stock price and the opportunities for growth investment in determining the execution

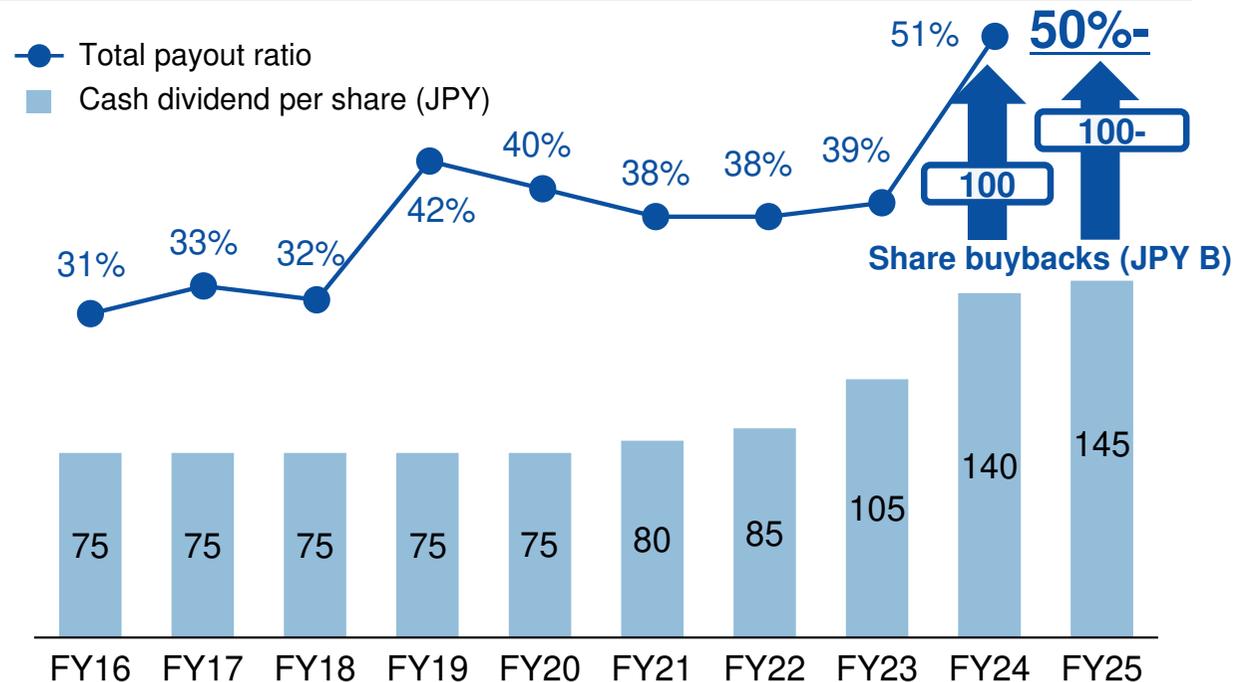

Shareholder Return forecast for FY25

Cash dividend : JPY 145 (vs FY24 + JPY 5) per Share
Interim : JPY 72.5, Year-end : JPY 72.5

Share buybacks: JPY 100B

Total payout ratio: approx. 50%

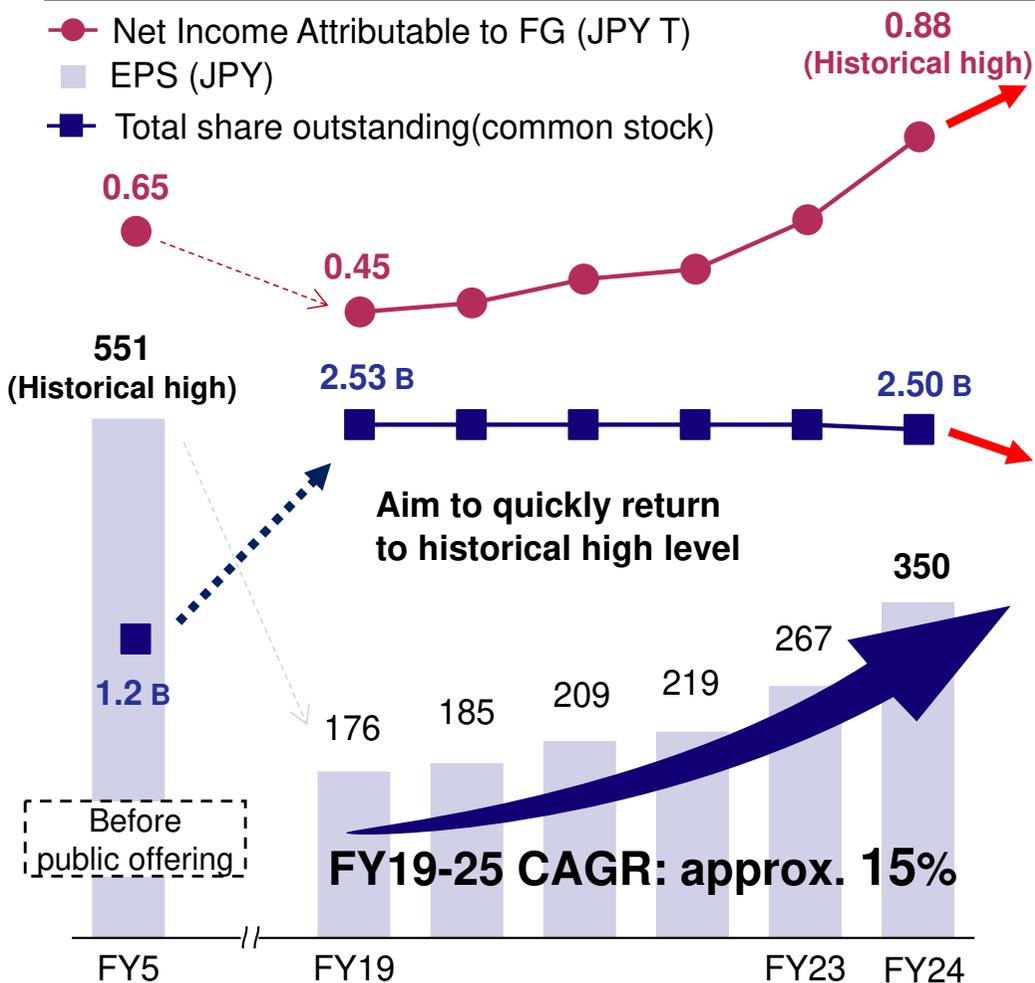

We will consider additional shareholder return (share buybacks), based on our business progress, capital adequacy, our stock price and the opportunities for growth investment

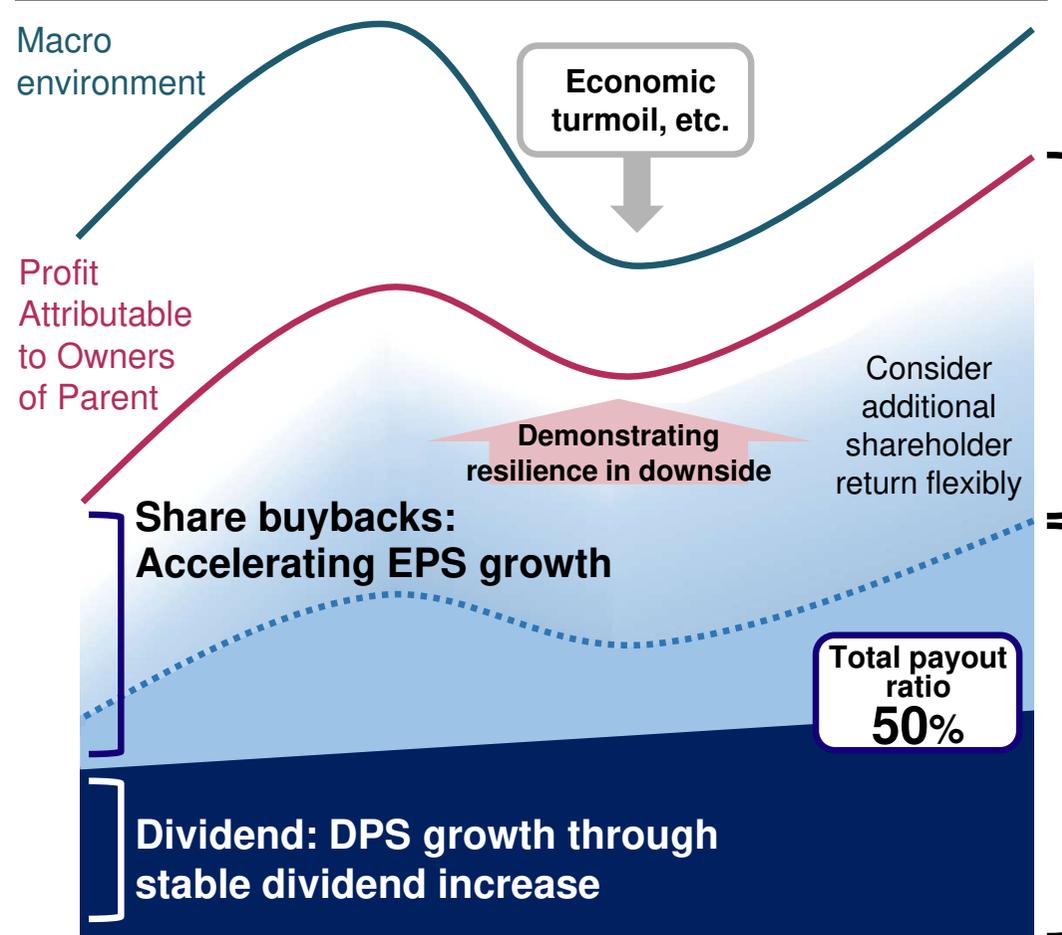

Concept behind the review of the shareholder return policy

- To improve EPS, continue to reduce the number of shares through share buybacks in addition to bottom-line growth
- Even under an uncertain business environment, commit to strengthening shareholder return by sustainable dividend increase and share buybacks

Despite historical high profits,
EPS still at 60% of its historical peak

Balancing sustainable dividend increase
and share buybacks

Disciplined growth investments

- Continue disciplined approach toward growth investments, actively pursue investment opportunities that will contribute to the growth of our focus business areas

Justify the investment while comparing the target ROE with implied cost of capital

Approach for disciplined growth investments

Exit, if target return will not materialize

Sustainability (1) Highlights

Responses to climate change

(Scope 1,2) Emissions from our own business

- Completion of switch to renewable energy expected to achieve -65% in FY24 from FY20
- Expansion of scope of carbon neutrality target to consolidated group
- Expansion of scope of third-party assurance to consolidated companies and globally

(Scope 3) Financed Emissions

- Using the “Grand Design” for the ideal future industrial structure for Japan as a starting point for client dialogue to support their steady transition
- Engaging in dialogues focused on GHG emissions reduction with approx. 100 client companies, which account for 70–90% of emissions in target sectors

Risk Control in Carbon-related Sectors

- Regarding clients’ response to transition risks, added 2 evaluation criteria of “achievement of a certain amount of GHG emission reductions with respect to targets” and “targets / results are aligned with 1.5°C scenario”

Conservation of natural capital

- Business alliance with UNDP and expansion of business capturing function through investment in Pollination, etc.
- Development of service-based solutions aimed at delivering value of natural forests

Realization of circular economy

- Invested in companies with recycling technologies for used plastics and lithium-ion batteries
- Mizuho Leasing established a JV to engage in demolition of buildings and waste disposal

Respect for human rights

- Implemented enhanced due diligence when extremely serious human rights issues were detected (6 companies in FY24)
- Considering changes in business environment, reviewed significant human rights issues (Human Rights Issue Map) in Mizuho's business activities
